

OPENED THE SWITCH

SOME ONE RESPONSIBLE FOR A FATAL WRECK ON THE OLD O. & M.

Engineer Little Dead, Fireman Cadden and Another Man Badly Hurt—Convict Cycle Business.

CINCINNATI, O., July 30.—Shortly before 5 o'clock to-night the St. Louis express on the Ohio & Mississippi railway, due here at 5:30 o'clock, ran into a freight train on the siding at Cochran, Dearborn county, Indiana, twenty-eight miles from this city, wrecking the passenger engine and three freight cars. The freight had taken the siding expecting to follow the express. Some one evidently had opened the switch after the freight had run in, as the trainmen state that they left it closed. There were none of the trainmen in the caboose, and none of the freight crew were hurt, but the rear part of their train was wrecked, as well as the engine of the passenger train. The injured are:

JOHN LITTLE, of Washington, Ind., engineer of the passenger train, so badly injured he died an hour afterward.

DANIEL CADDEN, fireman, of Washington, Ind.; caught in the wreck of his engine and lost one leg.

WILLIAM BELL, of Milan, Ind., stealing a ride on the postal car, lost a leg; dying.

Cadden and Bell are both being cared for at Cochran, and are doing well to-night.

Beyond the amputation of their limbs, they suffered no further injury. None of the passengers or others are reported to have suffered any injury beyond the shock of the accident. None of the cars on the express was damaged.

WANTS A DEBATE.

And Will Stay About Anderson Until the Spiritualists Leave.

SPECIAL TO THE INDIANAPOLIS JOURNAL.

ANDERSON, Ind., July 30.—The Spiritualist camp near Chesterfield was thrown into a furor of excitement yesterday by the appearance of Rev. Clark Braden, a noted debater in the Christian church circles. On several occasions Rev. Braden and the Spiritualists have attempted to get together for a joint debate, but some hitch in the details always prevented. Rev. Braden is after waiting for the Spiritualists, who recently declined to meet him after they had arranged a debate. At the grounds yesterday he distributed a circular in which he says, in closing: "I will remain near Anderson until after your camp meeting. I will wait for you at all your cordials. Not even the lies of your lying non-believing press of Anderson can cover up your cowardly backout." The officers of the association are highly incensed and threaten to have Braden arrested.

John Oglebay, of Tipton, Attempts Suicide at His Sweetheart's Grave.

SPECIAL TO THE INDIANAPOLIS JOURNAL.

TIPTON, Ind., July 30.—Last night John Oglebay, junior member of the law firm of W. R. Oglebay & Son, attempted suicide by taking a solution of chloral containing about one hundred grains of the poison. He has been in a despondent condition since the death of Miss Omelia Kiefer, daughter of ex-Sheriff John Kiefer, who died on Thursday evening last. After the death yesterday he talked about the girl, death, poison, etc., and after purchasing the drug he began drinking after dark. He went to the cemetery, took the poison and threw himself across the grave of the young girl, where friends found him in a semi-conscious condition. He was immediately brought to town and several physicians called in. After an hour's work he revived and was pronounced out of danger this morning.

HELD TO THE GRAND JURY.

Ed Holloway Waived His Examination at Terre Haute.

SPECIAL TO THE INDIANAPOLIS JOURNAL.

TERRE HAUTE, Ind., July 30.—Ed Holloway, who is accused of wrecking the train at Fontana, and who recanted his alleged confessions, to-day waived a preliminary examination and his case will go before the grand jury. The defense lawyers say they can prove beyond doubt that Holloway was not at Fontana at the time of the wreck, and that after the miners drove him from the freight train which arrived there at 9 p. m. that night, and on which he was riding, he was seen by a half dozen persons as he walked to Rockville, four miles from Fontana, and that with the excitement and danger he was in at Fontana, followed by his arrest and talk of detective Gray of the Big Four, he did not know what he was saying when he made the confession.

Fourth District Republicans.

SPECIAL TO THE INDIANAPOLIS JOURNAL.

SHELBYVILLE, Ind., July 30.—As the time for nominating a Republican candidate against Representative William S. Holman draws near it becomes more evident that the convention to be held in Greensburg, Aug. 2, will be a long one and the contest for the place on the ticket a vigorous one. The disaffection among Democrats of all classes in this district is a serious matter to Mr. Holman, and renders his defeat, if renominated, a reasonable certainty. Among the candidates prominently mentioned are Judge Cullen, of Rush county; E. D. Moore, of Dearborn; C. F. Jones, of Franklin; Bally Wilson, of Ripley, and T. B. Adams, of this city. Two other men are quietly spoken of as over

the district, and will develop great strength in the convention in the event that a nomination is not made in the first three ballots. These men are the Hon. Will Cumbach, of Decatur, and James E. Watson, of Rush.

It is now in a fair way to become one of the leading counties in the State.

TURNOUT FOR DEBS

LITTLE GIRLS MARCHED IN THE PARADE AT BRAZIL LAST NIGHT.

Debs Admits the Strike Is Over—No Sign that the Pullman Works Are to Start Up Soon.

SPECIAL TO THE INDIANAPOLIS JOURNAL.

BRAZIL, Ind., July 30.—One of the greatest labor demonstrations ever held in the city came off to-night. Elaborate preparations were made for the arrival of Eugene Debs, who was announced as the speaker. He reached the city from Terre Haute at 5:40 o'clock, over the Vandalia, accompanied by his wife and sister-in-law. The party was met at the train by an immense crowd and a band. From the depot the procession formed in line and marched east on Main street to the Hendrix House, where the party was lodged. Just following the carriage containing the Debs party a band of little girls, all attired in white, marched in line, carrying a banner on which was the following:

"We Are in Sympathy with Organized Labor."

When the hotel was reached a number of citizens, both men and women, called on the great labor leader, and grasped his hand. After a short conversation, Debs was given the front parlors of the hotel, where all spent an hour or so before going to the ground, just west of the hotel, where the speaking was held. The speaker's stand was elaborately decorated with flowers and bunting. Mr. Debs was greeted with an audience numbering at least six thousand people, which loudly cheered him at frequent intervals. One conspicuous feature of the parade was that only a very few business men participated.

RAILROADS AGAINST CHICAGO.

Damages Asked for Destruction of Property During Three Days.

CHICAGO, July 30.—The first of the claims against the city for damage to property during the late strike were filed to-day. The damage, for which notice has been served, covers only the property damaged the first two or three days in July and for the legal recognition of which the time allowed under the statutes expired to-night. The claims aggregated \$39,339. The first claim was filed by the Grand Trunk, for all the roads. The claim is not complete for the property destroyed in the early days of the strike, but it is the best that the roads could present in the hurry necessary to get within the statutory time of thirty days. Attorney Foster declared to-night that when he sees the papers on Mayor Hopkins, the latter flung them across the room, remarking that Mr. Foster could serve any notices as he chose. This statement is denied by Mayor Hopkins and others who were present. The papers without comment of any kind.

The claims of the property owners on Grand Trunk have been sent to Washington by General Miles. The total amount is the aggregate amount asked by the owners of the properties damaged by the explosion of a Pullman car on July 16. The board of officers appointed by Gen. Miles, it is said, has recommended the payment of nearly all the claims in full.

SAN FRANCISCO, July 30.—The United States district attorney is preparing an omnibus complaint against the American Railway Union men who are in jail in northern California charged with offenses against federal law. Complaints will probably be lodged before United States Commissioner Heacock, as committing magistrates to-morrow. The complaint is to take the place of the multiplicity of complaints now pending, and it is expected that it will charge will allege interference with interstate commerce and trade, and conspiracy to obstruct the mails. The desire is to simplify the many charges against strikers of overt acts occurring in the strike. The complaint will read: "We do not want these men to feel," said Assistant United States District Attorney, "that this is a case of the government piling up charges against them. There is a desire to treat the strikers with a spirit of fairness, and of respect, and to punish them for their criminal acts."

The defendants will include between thirty and forty names, including the American Red Bluff, several of whom are now incarcerated at San Francisco.

Mayor Hopkins's Threat.

CHICAGO, July 30.—Mayor Hopkins said to-day that unless he was informed before night as to whether the Pullman company intends to start its works this week the troops in Pullman will be removed within three or four hours. The cost of keeping the militia there is heavy, said the Mayor, and unless he is convinced that there is urgent need for retaining them he will ask them to leave. He said he would not wait to-night, so far as can be learned, no word had been received by the Mayor from the Pullman company. The Mayor issued, however, for the removal of the troops from the city. Reports of the action are expected to-morrow. Reports that the works had been started up are without foundation.

THE MOSQUITO KING.

An Extremely Picturesque, If Not Very Strong, New World Sovereign.

Philadelphia Record.

The Mosquito King, whose territory has been occupied by Nicaragua, is not a very powerful sovereign, but he is an extremely picturesque figure. There is no doubt that the Mosquito kind can enjoy their realm, a small slice of territory on the Central American coast, is peopled with a mixed race of Indians and Negroes of a settlement in the tropical wilderness. Other runaway slaves joined them. Some married Indian women, and some were run away slaves. The Spanish sought to conquer the Mosquito settlements, but the brave and enterprising people, on the battlefield, at least, and maintained their independence. They have repulsed all attacks until recently.

This region is called the Mosquito country, presumably because of the number of mosquitoes and the persistence of the mosquitoes. Why any white men should want it is difficult to see. Negroes, at least, but the Mosquito kind, can enjoy themselves well enough there.

The king is lord of life and death in Mosquito land. He is a true sovereign, and he is much more careful in that particular than the future King of England. Recently an American war vessel anchored off his coast, and the king went down in great state to meet the captain with a mixed band of Indian representatives of the United States to his domains.
